<sup>3</sup>Bursary application requirements and bursary conditions:  
 Partial bursaries will only be available for participants living in countries with low and lower middle income. Submission of a **letter of recommendation** from the bursary applicant's current workplace or from the leadership of the local ILAE Chapter or Regional Commission stating the expected benefit to the epilepsy care and development in the bursary applicant's community **is required**. In case such evidence cannot be submitted, a **personal letter of motivation** is required outlining the benefit the bursary candidate expects for his/her daily practice and professional career **specific to epileptology**. This requirement (letter of recommendation OR personal letter of motivation) is **mandatory** and is an important part of the decision-making process for the granting of any bursary. It is also important to note that no progress and completion of the compulsory courses within 1 year impacts future decisions about bursary eligibility. Bursaries will be **partial bursaries** involving partial payment. **There are no further discounts available if a bursary is awarded.**
